Meteor measuring instruments on the superstructure deck

1. Cloud camera (CloudCam)
2. Rain gauge
3. Standard weather station
4. X-band radar
5. Disdrometer
6. Ceilometer
7. MRR – Micro Rain Radar
8. GNSS - column water vapor
9. Infrared skin temperature sensor
10. HATPRO radiometer
11. WindCube
12. W-band cloud radar
